Project Overview

Covenant Testing Technologies, LLC (the client) is seeking to rebrand/refresh their existing website (<http://ctest.com>). The focus of the project is to provide a streamlined, focused layout integrating the existing content and graphics where applicable. The key site changes/additions are: primary navigation, landing page video embed, corporate history timeline, services narrative, team page and covenant cares content. In addition, typography, ux layout and content edit per the client's direction/discretion.

Project Proposal

Our proposal is to deliver a custom WordPress child framework built off the existing theme that integrates the feature set requirements to the client's server. The client's existing graphics, content and data will be integrated into the site along with additional graphics and video elements as required. The framework will support a fully customizable unique landing page (home page), unique interior pages (five different layouts), integrated SEO toolset and integrated news. The site will be fully responsive for three (3) screens: desktop, tablet & handheld and with mobile optimized content.
